Profile

I am a detail-oriented, hard-working MSc student in Computer Science with Data Analytics online programme, experienced in **WEB & SOFTWARE DEVELOPMENT, DATA SCIENCE, CREATIVE CONCEPTION, AGILE & SCRUM METHODOLOGIES**. I find coding immensely satisfying and rewarding. I relish the logical and creative challenge that it poses. I am seeking to take the next career step with organisations passionate about their projects. I am looking for a fast pace environment with continuous learning opportunities. My strengths lie in my strong problem solving, communication skills and team working ability. I'm curious and enthusiastic by nature.

Experience

Algorithmicschool • Sept 2020 – Present

✉ [algorithmicschool](#)

Role Part-Time Teacher

At Algorithmics, we want children and adults to learn skills that will help them in the future, no matter what profession they choose later. Our school offers courses where the children learn creative and logical thinking, how to work in teams and much more in an exciting and playful way.

I perform daily code reviews of the students work, ensuring they follow best practices and advising more efficient solutions to problems.

Polare Ltd. • Sept 2020 – Present

"ANO DO 'RK'" • Sept 2020 – Present

✉ [Polare Ltd. UK](#).

Role Lead Full Stack Developer

A website CRUD Application SPA. Educational Platform for students and teachers on the basis of NPO "Film Republic".

- Using Javascript to interact with the app on the Front-End.
- Implementing MVT architecture.
- Using Django as a back end for the app.

Codebar, London/ Helsinki • Apr 2020 – Present

□ codebar.io

Role Coach

codebar is a non-profit initiative that facilitates the growth of a diverse tech community by running regular programming workshops.

The goal is to enable underrepresented people to learn programming in a safe and collaborative environment and expand their career opportunities. To achieve this we run free regular workshops, regular one-off events and try to create opportunities for our students making technology and coding more accessible.

General Assembly London • Oct 2019 – Jan 2020

UstinVaskin-SEI-44-Project-4

"SEI-44 " • Apr 2019 – Jan 2020

Role Software Engineering Immersive Student

A full-time student on the Software Engineer Immersive program that includes over 500 hours of professional training taught by industry experts over 12 weeks.

"Q Gen" • Dec 2019 – Jan 2020

□ <https://qbloggen.herokuapp.com/#/> □ UstinVaskin-SEI-44-Project-4

Individual project / 10 days

Q Gen is a Social Network platform where users can publish, discuss and share ideas, make friends, and create chats. A CRUD application built with ReactJS on the Front-End and Python and Django on the Back-End, using SQL database and Django REST framework.

Technologies Adobe XD, Babel, Bulma, Django, Git, GitHub, HTML, ReactJS, UX, Webpack

Hiking, Learning, Paragliding, Reading, Volunteering, Writing

Keywords

Artificial intelligence, Full-Stack Developer, Machine learning, Programming, Solving complex problems, Web development

BamBook is a Full-Stack Web Application for authors and book-lovers that allows users to discuss, books, post their own stories, browse those of others and communicate with each other. It is a CRUD application built with a MERN stack. My main responsibility was to build out the back end: the models, the RESTful API, the User Authentication. On the front end, I was responsible for layouts and forms.

Technologies Adobe Illustrator, Axios, Babel, Bluebird, Bulma, Express, HTML, JavaScript, MongoDB, Mongoose, Node.js, Promise, ReactJS, SCSS, Webpack

SUN & MOON • Oct 2019 – Nov 2019

□ [UstinVaskin/MOON-SUN](#)

Paired project | 4 days.

This is a Web App that accurately shows the state and phase of the Sun and Moon in any place with a daily-updated horoscope. The project was built in ReactJS using external APIs.

Technologies API, Bulma, CSS, Git, GitHub, ReactJS, UX

FlixBBox • Oct 2019 – Nov 2019

□ [UstinVaskin/FlixBBox-Movie-Library](#)

Paired project | 5 days.

FlixBBox is a Web Site - TV & Movie Database with custom-built filters using Third-party APIs.

Technologies API, CSS, Git, GitHub, ReactJS, UX

Penguin-Game • Oct 2019 – Nov 2019

□ <https://ustinvaskin.github.io/Penguin-Game/> □ [UstinVaskin/Penguin-Game](#)

Individual project | 3 days

It is my variant of Google's Dinosaur Game (T-Rex run!) with an icy twist – controlling the dinosaur (penguin) with a Machine Learning Speech Commands model.

- Designed logic for winning & visually displayed, implemented an ML Speech Commands model, semantic markup for HTML and CSS

Technologies CSS3, Git, GitHub, HTML5, JavaScript (ES6), OOP

Sink a ship, baby! • Oct 2019 – Nov 2019

□ <https://ustinvaskin.github.io/Sink-a-ship-baby/> □ [UstinVaskin/Sink-a-ship-baby](#)

Individual project | 7 days

Utilized HTML, CSS and JavaScript to build a grid-based vanilla JS game in the browser (Version of Battleship) in a week. It was my first real-world practice with JavaScript and the DOM.

Technologies CSS3, Git, GitHub, HTML5, JavaScript (ES6), OOP

Department of Education KhMAD- Yugra • Dec 2017 – Jun 2018

Accessible Education for Children • Dec 2017 – Jun 2018

□ <https://hmao.pfdo.ru/>

Role Project Lead

A mechanism of financial support for extracurricular education, designed to explore educational paths. Also allows assigning a portion of financial support for educational courses. The system is also revealing especially popular extracurriculars while also facilitating providers to respond to actual demand.

- Developed the program concept and methodologies for informational and organisational support.
- Collected data on the educational organisations in KhMAD- Yugra. Followed a series of meetings and workshops to design a draft project. Built a prototype and user-tested it. Incorporated user feedback from testing.
- Coordinated with software engineers to implement the data-informed designs and features of the personalised education portal (hmao.pfdo.ru).
- Launched the initial version at a Regional Level.
- The project was later scaled up to a Federal Level.

Technologies A/B Testing - Optimizely, Adobe After Effects, Adobe Photoshop, Adobe XD, Agile CRM, CSS 3, Google Analytics, HTML 5, JavaScript, MySQL, SWOT analysis

FR (NPO) • Nov 2017 – Sept 2019

Co-founder & CEO • Nov 2017 – Jul 2019

Role Co-founder & CEO

Organisation's aim is to enable children with disabilities in Nizhnevartovsk to get involved in film production and theatre.

- Raised ~₽10M (CA\$200K / US\$150K) from private and government sources.
- Planned and executed the production schedule including human and material resources.
- Designed training programs for new employees and ongoing projects to improve effectiveness of existing staff.
- Won 3 municipal and 2 federal awards for “Integration of theatrical and cinema art in the field of education and social adaptation”.
- Designed and implemented a diversified financial strategy to provide Film Republic with independence from funders.
- Expanded school by acquiring additional staff and workspace (eventually the whole building) and two other locations.

Technologies A/B Testing - Optimizely, CSS 3, Google Analytics, HTML 5, JIRA, Microsoft Forecaster, SWOT analysis
